Forecast For East of England
Issued by Met Office Exeter
at 0400 on Saturday 12 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry with long spells of strong sunshine. Coastal sea-breeze developing.

Today:
Dry, with patchy cloud but still long spells of strong sunshine. Becoming warm or very warm for many areas, with light winds. However, coastal areas will feel noticeably cooler compared to Friday as sea-breezes develop here. Maximum temperature 24 deg C (75 deg F).

Tonight:
Mostly sunny this evening and then dry and clear overnight with light winds. This may allow some patchy mist and fog to form in rural areas. Minimum temperature 7 deg C (45 deg F).

Sunday:
Any initial mist or fog quickly clears. Then dry and largely sunny, and becoming very warm for many places. However, coastal locations will be slightly cooler as light sea-breezes develop. Maximum temperature 26 deg C (79 deg F).

Outlook for Monday to Wednesday:
Mainly dry and sunny each day with light winds and sea-breezes. However, Wednesday there is an increasing chance of thunderstorms. Generally warm or very warm, but locally hot on Monday.
